SUMMARY

Computer Science and Engineering (AI & ML) student with hands-on experience in developing responsive web applications, interactive dashboards, and data analytics solutions. Proficient in **Python, JavaScript, SQL,** and modern frameworks like **React and Tailwind CSS**. Completed multiple academic and personal projects applying algorithms, APIs, and database design to solve real-world problems. Eager to contribute technical skills and creativity to innovative software development teams.

PROJECTS

Portfolio Website [HTML, CSS, JavaScript]
- Designed and developed a fully responsive personal portfolio showcasing projects, skills, and achievements.
- Implemented smooth animations and interactive sections for improved user engagement.
- Added dark/light mode toggle and downloadable resume feature.

View Project
